 **CISA CERAMICHE**
PER PASSIONE DAL 1954

Dal 1954 storia e tradizione ceramica.

Part of ceramic tile manufacturing history and tradition since 1954 .

Depuis 1954 histoire et tradition de la céramique.

Seit 1954: Geschichte und Tradition der Keramik.

История и традиция керамики с 1954 г.

 **CISA**
CERAMICHE

Dall'armonia fra le parti nasce una bellezza assoluta: ogni elemento ha un proprio ordine nell'architettura degli spazi. In un gioco di incastri perfetti il progetto contemporaneo esibisce una multiforme varietà fatta di dettagli sapientemente organizzati. È così che Modula, grazie ad un sapiente utilizzo della tecnologia digitale, con i suoi quattro colori e i suoi quattro formati modulari regala ad architetti e interior designer un nuovo equilibrio formale nel quale l'ispirazione alla pietra naturale si sposa con un'inedita libertà compositiva.

A harmonious blend of parts that creates an absolute beauty of the whole; each element has its own order in the architecture of space. Creativity with seamless joints allows for contemporary designs featuring a multiplicity of forms emerging from carefully arranged details. Through skilled use of digital technology, Modula – with its four colours and four modular sizes – gives architects and interior designers a new balance of form in which natural stone inspiration is combined with an unprecedented compositional freedom.

L'harmonie entre les parties crée la beauté absolue : chaque élément occupe sa place dans l'architecture des espaces. En un jeu d'encastres parfaits, le projet contemporain arbore une variété multiforme faite de détails savamment organisés. C'est ainsi que Modula, grâce à une utilisation savante de la technologie numérique, avec ses quatre couleurs et ses quatre formats modulaires offre aux architectes et aux interior designer un nouvel équilibre formel où l'inspiration à la pierre naturelle épouse une liberté de composition inédite.

Aus der Harmonie der Teile entsteht absolute Schönheit: jedes Element verfügt über eine eigene Ordnung in der Architektur der Räume. In einem Spiel von perfekten Kombinationen führt der zeitgenössische Entwurf zu einer kaleidoskopischen Vielfalt von hochgradig organisierten Details. Und so bietet Modula durch den gekonnten Einsatz der digitalen Technik sowie mit den vier Farben und den vier modularen Formaten Architekten und Innendesignern ein neues formales Gleichgewicht, inspiriert durch den Naturstein, und mit einer vollkommen neu kompositorischen Freiheit.

На основе гармонии частей рождается совершенная красота: каждый элемент имеет свое место в архитектуре пространств. В игре совершенных сочетаний этот современный проект выставляет напоказ многогранное разнообразие, состоящее из мастерски организованных деталей. Именно так Modula, благодаря умелому использованию цифровой технологии с ее четырьмя цветами и ее четырьмя модульными форматами, дарит архитекторам и дизайнерам интерьеров новое равновесие формы, в котором вдохновение природным камнем сочетается с совершенно новой свободой композиции.

The future stems from the present.

Quality is a balance that combines surface aesthetics and high technical performance with love for nature, thereby safeguarding the ecosystem. To achieve this, our products are realized using technologies that reduce the consumption of natural resources, minimize the impact of harmful substances on the environment, while always guaranteeing attractive surfacing materials that help you live your life to the full.

Natural... ceramic tiles

Le futur naît du présent.

La qualité est un équilibre qui unit l'esthétique des surfaces, de hautes caractéristiques techniques, l'amour pour la nature, tout en sauvegardant l'écosystème. C'est la raison pour laquelle nos produits sont réalisés suivant une technologie qui réduit l'exploitation des ressources, minimise l'impact des substances nocives dans l'environnement et garantit de belles surfaces qui aident à mieux vivre.

Naturellement... céramique

Die Zukunft entsteht aus der Vergangenheit.

Die Qualität ist ein Gleichgewicht, das die Ästhetik der Oberflächen, hohe technische Eigenschaften Liebe zur Natur zur Geltung bringt, indem der Schutz des Ökosystems gewährleistet wird. Aus diesem Grund werden unsere Produkte mit einer Technologie hergestellt, die die Ausnutzung der Ressourcen mindert, den Einfluss der Schadstoffe auf die Umwelt reduziert sowie schöne Oberflächen gewährleistet, die zu einem besseren Leben beitragen.

Natürlich... Keramik

Будущее рождается из настоящего.

Качество – это равновесие, состоящее из внешнего вида поверхностей, высоких технических характеристик, любви к природе и охраны экосистемы.

Поэтому наша продукция выпускается с применением технологии, сокращающей ресурсоемкость, сводящей до минимума воздействие вредных веществ на окружающую среду и создающей красивые керамические поверхности, благодаря которым жизнь становится лучше.

Натуральность... керамики

Il futuro nasce dal presente.

La qualità è un equilibrio che mescola insieme estetica delle superfici, caratteristiche tecniche elevate, amore per la natura salvaguardando l'ecosistema. Per questo i nostri prodotti sono realizzati con una tecnologia che riduce lo sfruttamento delle risorse, minimizza l'impatto delle sostanze nocive nell'ambiente e garantisce superfici belle che aiutano a vivere meglio.

La nuova tecnologia digitale con la quale Ceramiche Cisa realizza i propri prodotti, permette di ottenere un'ampia quantità di varianti grafiche e riprodurre con fedeltà ogni tipo di texture, colori e superfici. In questo modo Ceramiche Cisa è in grado di offrire prodotti dal grande valore estetico e dall'elevata resistenza tecnica.

The new digital technology which Ceramiche Cisa employs in the manufacture of its products offers a wide range of graphics options and faithful reproductions of all types of textures, colours and surfaces. This means Ceramiche Cisa products are both extremely attractive and highly resistant on all technical levels.

La nouvelle technologie numérique grâce à laquelle Ceramiche Cisa réalise ses produits, permet d'obtenir une grande quantité de variantes graphiques et de reproduire fidèlement tout type de textures, couleurs et de surfaces. De cette manière, Ceramiche Cisa est en mesure d'offrir des produits d'une grande valeur esthétique et d'une grande résistance technique.

Die neue digitale Technologie, mit der die Firma Ceramiche Cisa ihre Produkte herstellt, erlaubt eine breite Vielfalt graphischer Varianten sowie die getreue Nachbildung aller Arten von Strukturen, Farben und Oberflächen. Auf diese Weise ist Ceramiche Cisa in der Lage, Produkte mit hohem ästhetischen Wert und technischer Widerstandsfähigkeit anzubieten.

Новая цифровая технология, при помощи которой Ceramiche Cisa создает свою продукцию, позволяет получать многочисленные графические варианты и точно воспроизводить текстуры, цвета и поверхности любого типа. Таким образом, Ceramiche Cisa может предлагать продукцию с большой эстетической ценностью и высокими характеристиками прочности.
